Art Unit: 1775

1. Applicant's election with traverse of Group I in Paper No. 5 is acknowledged.

The traversal is on the ground(s) that the applicant declares that the product cannot be made by the technique cited by the examiner. This is not found persuasive because the declaration has not provided why the inventor feels that the proposed method would not work.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 24-35 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 5.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Montcalm et al (5,958,605).

The rejection is maintained for reasons of record in paper No.2. Applicant's arguments filed 3-20-03 have been fully considered but they are not persuasive.

Art Unit: 1775

The declaration under 37 CFR 1.132 filed 3-20-03 is insufficient to overcome the rejection of claims 1-23 based upon Montcalm et al as set forth in the last Office action because: no factual evidence has been provided that the bottom layer would not prevent inter diffusion. The applicant is also reminded that Montcalm et al discloses a mixed layer numeral 36, in fig. 1B, that need to be addressed as well, in the declaration.

5. Claims 1,3-6,9,10,13-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Mikarimi et al (6,011,646).

The rejection is maintained for reasons of record in paper No.2. Applicant's arguments filed 3-20-03 have been fully considered but they are not persuasive. The applicant has failed to show that since the same components are used how the claimed property is not provided for, and thus the rejection stands. The applicant is reminded that the claimed invention is not limited to having another layer above the top overcoat.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1775

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry regarding this communication or earlier communications from the Examiner should be directed to Archene Turner, whose telephone number is (703) 308-4344. The Examiner can normally be reached Monday to Thursday from 8:30 AM to 6:00 PM.

A facsimile center has been established in Group 1700, Crystal Plaza 2, 8th floor, reception area. The hours of operation are Monday through Friday, 8:45 AM to 4:45 PM. The telecopier number for accessing the facsimile machine is (703) 305-3599 (for official after final faxes) or (703) 305-5408 (for all other official faxes). This location should be used in all instances when faxing any correspondence to Art Unit 1775. Use of the Group 1700 center will facilitate rapid delivery of materials to Examiners in Art Unit 1775.
